Smoke sensors offered

In an effort to help safeguard lives and property, the management of Mission Viejo Company is offering early warning smoke sensors—at their wholesale cost—to residents of Mission Viejo.

Both battery-powered and electrically operated smoke sensors will be available from Mission Viejo Company through the Mission Viejo Decorator Center.

The smoke detectors, which are about the same size as a small wall clock, are placed on any wall of the home. The sensor sounds a loud alarm when toxic fumes or smoke is present. One smoke sensor is capable of pro-

tecting an average size house.

Their value lies in the fact that the alarm will awaken a sleeping family at the beginning of a fire.

The attractive, cordless, battery-powered model, which is easiest to install, will be available for approximately \$50. The electric model will be offered for about \$30.

As a public service, Mission Viejo Company invites all Mission Viejo residents who are interested in purchasing a home smoke detector, to return the coupon below. There is no obligation.

I am interested in purchasing a home smoke sensor at cost from Mission Viejo Company. Please send me more information.
